

DIVISION OF CAREER & TECHNICAL EDUCATION

CIVIL DESIGN

ASSOCIATE OF SCIENCE DEGREE

This major provides a focused course of study for students in preparation for careers involving the design and construction of civil engineering projects. The curriculum also puts interested students on the path to licensure as civil engineers. The coursework includes exposure to the broad range of subdisciplines within the field of civil engineering, and closely-related fields such as surveying, architecture, geographic information systems (GIS), and construction. Additionally, the integral coursework focuses on the preparation of common civil project drawings using industry-standard drawing techniques and conventions with hand and/or computer-aided drafting (CAD) tools. As a degree (in contrast to a certificate), this program requires the completion of general education courses; however, if transfer to a university for a baccalaureate or advanced degree is desired, interested students should carefully consider the specific admission and transfer requirements for individual colleges and universities.

To acquire the **Associate of Science Degree in Civil Design**, students must complete the required major courses below with a grade of "C" or better along with one of the following:

- RHC GE and Proficiency requirements
- CSU GE (California State University General Education Breadth)
- IGETC (Intersegmental General Education Transfer Curriculum)

Required Courses		Units	N	IP	C
ENGT 101	Introduction to Technical Drawing & Graphics	3			
ENGR 100 or ENGT 100	Introduction to Engineering	2			
ENGT 150 or ENGT 170	AutoCAD for Basic CADD Applications MicroStation for Basic CADD Applications	4			
ARCH 110 or ARCH 115	Construction Document Reading and Estimating Introduction to Residential Architecture: Drawing and Design	3 4			
CIV 140	Civil Engineering & Construction Fundamentals	4			
CIV 142	Introduction to Land Surveying and GPS	4			
CIV 210	Concrete Technology and Testing	2			
CIV 241	*Civil Engineering Drafting and Design	3			
Choose a minimum of 5 units from the following:					
CIV 143	*Applications to Surveying and GPS	4			
CIV 245	*Civil Engineering Design and Modeling	3			
CIV 290	Cooperative Work Experience/Internships for Civil Related Fields	1-4			
CIV 299	*Directed Study in Civil Design Technology	1-3			
GIS 120	Introduction to Geographic Information Systems	4			
Total major units needed for the Associate of Science		30-34			
Units Completed					
*Prerequisite/Corequisite
