## ELECTRIC VEHICLE AND FUEL CELL TECHNOLOGY TECHNICIAN <br> ASSOCIATE OF SCIENCE DEGREE

The Associate of Science in Electric Vehicle and Fuel Cell Technology
Technician prepares students to address needs in the emerging field of servicing and diagnosing green vehicles, including electric, hybrid, plug-in hybrid, and fuel cell automobiles. Students need to apply for the Automotive Service Excellence (ASE) Light Duty/Hybrid/Electric Vehicle Specialist Test (L3) and pay all applicable fees to take the final ASE exam. This degree is intended to be the capstone of the Hybrid/Electric/Fuel Cell Program.

To acquire the Associate of Science Degree in Electric Vehicle and Fuel Cell
Technology Technician, students must complete the required major courses below with a grade of "C" or better along with one of the following:

- RHC GE and Proficiency requirements
- CSU GE (California State University General Education Breadth)
- IGETC (Intersegmental General Education Transfer Curriculum)
