

AREA 6: LANGUAGE OTHER THAN ENGLISH (UC Requirement Only)	Need	IP	COMPLETED
Proficiency equivalent to two years of high school study in the same language OR one course from the following.			
<p>Note: Courses in this area that appear in Area 3 Humanities may be counted for both areas</p> <p>ASL 101, 102, 201; CHIN 101, 102; FR 101, 102, 201, 202; JAPN 101, 102; LATN 101, 102; SPAN 101, 101S, 102, 102S, 201, 201H, 202</p> <p><i>There are additional ways to satisfy the Language Other than English Requirement. Please see a counselor for advisement.</i></p>	UC		

CSU GRADUATION REQUIREMENT IN U.S. HISTORY, CONSTITUTION, AND AMERICAN IDEALS			
Choose one course from Group 1 and one course from Group 2. (May be double-counted with areas 3 and 4)			
GROUP 1: POLS 110, 110H	CSU		
GROUP 2: HIST 143, 143H, 144, 144H, 156, 157, 158, 159, 159H, 170	CSU		

IMPORTANT INFORMATION

- All coursework used for IGETC must be completed with a “C” or better, and each course must have a minimum value of 3 semester/4 quarter units.
- IGETC may not be appropriate for all majors. It is highly recommended that students meet with a counselor and/or consult with individual campuses prior to selecting courses.
- Courses may be counted for one GE area only, with the exception of Area 6: Language other than English requirement.
- Courses on this list are approved for the academic year 2021-2022 which is valid beginning Fall 2021 through Summer 2022. For a complete listing of courses and their approval dates, please visit www.assist.org.

IGETC Considerations

Students with substantial coursework from institutions outside of the United States should consult with a counselor to determine whether they should complete IGETC or the lower-division breadth/general education requirements at the campus they plan to attend.

Berkeley | IGETC is not accepted by the Haas School of Business nor the College of Engineering. IGETC does not fully satisfy lower-division breadth requirements for majors in the College of Chemistry nor the College of Natural Resources.

Davis | All undergraduate colleges accept IGETC. However, for the Bachelor of Science degrees and selective majors, IGETC is not recommended; students should focus instead of completing major preparation and taking UC Davis general education pattern courses as time permits.

Irvine | All Schools accept IGETC.

Los Angeles | All Schools accept IGETC. However, completion of IGETC is not required/encouraged for students applying to the School of Engineering; engineering students are instead encouraged to focus on lower-division major preparation prior to transfer. For the School of Nursing and the School of Theater, Film, and Television, IGETC is required.

Merced | IGETC is strongly discouraged but is accepted by the School of Engineering; students are encouraged to focus on lower-division major preparation. IGETC is not recommended but accepted by the School of Natural Sciences; students are encouraged to focus on lower-division major preparation. IGETC is recommended for the School of Social Sciences, Humanities, and Arts; students are encouraged to complete as much lower-division major preparation as possible.

Riverside | IGETC is recommended for the College of Humanities, Arts, and Social Sciences. The School of Business Administration requires IGETC. IGETC is acceptable for the College of Natural and Agricultural Sciences and the Marlan and Rosemary Bourns College of Engineering; some additional coursework may be required after enrollment.

San Diego | IGETC clears all lower-division GE requirements for John Muir, Earl Warren, Eleanor Roosevelt, Thurgood Marshall, and Sixth Colleges; some upper-division courses will be required after enrollment. For Revelle College, IGETC does not clear all lower-division GE requirements; students with IGETC are required to complete 3 courses in mathematics and 5 courses in natural science before transfer or while enrolled at UCSD.

Santa Barbara | IGETC is acceptable for the College of Letters and Science and College of Creative Studies. College of Engineering students are encouraged to focus on major preparation rather than general education, but may use IGETC to substitute for general education requirements. Students planning to transfer to UCSB into a major in biological or physical sciences, economics, engineering, computer science, mathematics, statistics, or psychology must be careful to complete lower-division major preparation courses to ensure competitiveness and make normal, timely progress through the major.

Santa Cruz | For majors in engineering and the physical and biological sciences, IGETC is not recommended. Students should ensure completion of lower-division courses for their intended major as indicated in the UCSC Catalog and on assist.org.
