# CHEMISTRY UC TRANSFER PATHWAY

ASSOCIATE IN SCIENCE DEGREE

The Associate in Science in Chemistry for UC Transfer Degree is intended for Rio Hondo College students planning to transfer to the University of California (UC) system as chemistry majors. Along with completing the degree requirements, students must comply with the following in order to be guaranteed admission\* to a UC campus participating in the Transfer Admission Guarantee (TAG) program:

1. Complete all of the chemistry major preparation coursework as outlined in this degree with a "C" grade or better in each course.
2. Complete the Intersegmental General Education Transfer Curriculum (IGETC) requirements with the deferment of two courses in Area 3 (Arts and Humanities) and two courses in Area 4 (Social and Behavioral Sciences) of the IGETC. These deferred courses are to be completed at the UC after transfer.
3. Complete a TAG application to a participating UC campus by the deadline set by the UC system.
4. Complete the individual TAG requirements for said UC campus by the deadlines set by the UC system.
5. Maintain or exceed the GPA requirements as outlined in the TAG agreement the student has made at said UC campus for their completed and remaining coursework before transfer.\*\*
6. Complete their application for admission to said UC campus by the deadline set by the UC system.

Students are *highly encouraged* to work with a Rio Hondo College STEM Counselor for assistance in completion of this degree. \*Please note that receiving this degree alone *does not* guarantee admission to the UC system. A student may submit a TAG application to only one UC campus. \*\*A student may still be awarded this degree by meeting the local GPA requirements at Rio Hondo College.

Required Courses	Units	N	IP	C
<b>Required Chemistry Courses</b>				
CHEM 130 *General Chemistry	5			
CHEM 140 *General Chemistry	5			
CHEM 230 *Organic Chemistry I	5			
CHEM 231 *Organic Chemistry II	5			
<b>Required Physics Courses</b>				
PHY 211 *Physics for Scientists and Engineers I	4			
PHY 212 *Physics for Scientists and Engineers II	4			
PHY 213 *Physics for Scientists and Engineers III	4			
<b>Required Mathematics Courses</b>				
MATH 190/H *Calculus I/*Honors	4			
MATH 191 *Calculus II	4			
MATH 250 *Calculus III	4			
MATH 251 or *Linear Algebra and Differential Equations	5			
MATH 270 *Differential Equations	4			
<b>Required Subtotal</b>	<b>48-49</b>			
<b>IGETC for STEM Pattern</b>	<b>varies</b>			
*Prerequisite/Corequisite
